# EXHIBITIONS & DISPLAYS

Sometimes it's not just what you say, it's how you look when you're saying it.

Our new Exhibit range gives you the tools to emphasise your message. For the first time, create enormous eye-catching displays... without the eye-watering price tag.

We've invested in the very latest, high-end, direct-to-fabric printing technology – the first of its kind in the UK. Our UK-based production hub employs talented seamstresses and technicians, ready and skilled to turn your ideas into a fabric reality.

Seeing is believing. Drop into our studio to goggle at our samples and talk through options.

Make the most of your next exhibit.

# FABRIC DISPLAYS

**Fabric Displays** are made up of two main components — a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 260gsm 'stretch' fabric cover is printed on both sides as standard. Designed to fit snugly over the frame, it is secured at one edge with a zip fastening. The fabric cover is changeable and additional covers can be ordered separately.

These 'next generation' displays deliver maximum impact and completely eliminate the problem of visible join lines on larger displays.

- Fabric Display frames utilise a simple 'click together' mechanism.

- Each part is numbered for easy identification and quick assembly.

- Stretch the fabric graphic over the frame and zip up.

- All Fabric Display frames are supplied with a carry bag for easy transportation and storage.
